

International School of Ministry A Curriculum with Global Impact

The potential of training thousands of leaders from all over the world, via video, is awesome. We support this vision whole-heartedly.
Joyce Meyer

I believe that this vision for the International School of Ministry is of God. It will inspire God's people globally and stir them into action as never before.
Reinhard Bonnke

My heart aches for others in remote regions who lack the opportunity for quality leadership training. I believe God has raised the International School of Ministry to meet the Churches greatest need – leadership development. This is one of the most strategic tools in missions today.
Dr. Dick Eastman

People are changed when they get into God's word and His word gets into them. It is the only thing that will provide lasting results and changed lives. ISOM is preparing thousands worldwide to bring forth the Word... and fruit that remains. I am very thrilled to be a part of it.
Marilyn Hickey

Train workers for the Kingdom in many languages!

Introduction

The ISOM Bible School, with over 250.000 students in 142 nations, is the world's largest multimedia Bible school. ISOM consists of five basic Semesters, plus more

than 10 Bachelor modules, taught by over 70 Christian teachers and leaders. Each Semester comes with DVD teachings, workbooks for each student, group studies and homework assignments. The teachers in the ISOM curriculum are all renowned for their specific subjects of expertise and many of them have internationally known ministries. The training is designed to be extremely practical and relevant to everyday life. The theology of the program is also solid and has been field tested worldwide for many years.

The ISOM Bible School was created with the objective of training those Christians who cannot attend a full time Bible school. Normally that group represents about 95% of believers who attend local churches. Since 1998, thousands of students in German-speaking nations have been trained for ministry and received ISOM Diplomas. Due to the power of the multimedia format, ISOM Bible schools can be started in the rooms of a church or in people's homes at any time of the year. Already over 15,000 churches worldwide have started an ISOM school which is a testimony to how easy they are to implement.

The main objectives of an ISOM Bible School are:

1. To help churches become training centers for all believers to learn ministry skills.
2. To help Christians become mature disciples of Jesus Christ.

We would love to give you detailed information about how to start an ISOM Bible school in your church. We recommend that you order our training catalogue and the Semester 1 package for just 200 Euros. This contains the DVD courses, two workbooks and our leaders guide on how to turn the local church into a training center for ministry. With this package you can introduce the school effectively to your whole church!

If you have further questions just give us a call: 033398-918771.

Many blessings,

Markus & Suni Rapp
